## Stuff you Should Care About

This is the stuff that I'm passionate about. These are the things I put effort into and learn for no better reason than "because." Because technology is awesome and community is important.

- Participation in Open Source and Free Software Community
  - Member of Archive Team
  - Bug Squashing with GNU FSF's wget
  - Bug Squashing with Valve's steam (Ok, technically not Open Source, but still involved)
  - <u>Devops/Bug Squashing/Feature building work for Youtube Center</u> (Assisted @YePpHa with automatic plugin updating for the YTC project. See pull request)
  - A blog with <u>extensive documentation</u> and <u>tutorials</u> of <u>various GNU/Linux user needs</u> as well as <u>write-ups</u>
    of a mathematical nature
- Projects
  - Terminal-based Aces Up card game in C++
  - Rudimentary DC Power Supply
  - Rudimentary Class A Power Amplifier
  - Hardware Random Number Generator
  - A personal wiki with guides on some differential equations problems and circuits problems.
- Languages and Tools
  - Programming: C++, Verilog, HCS12 assembly
  - Scripting: Bash, Perl
  - Development Tools: git, ant, GCC, eclipse, make, Doxygen
  - Software: Xilinx ISE, NI Multisim, LT-SPICE, MATLAB, Microwind, iverilog, gtkwave, ngspice
  - System Administration: GNU/Linux

## **Stuff you Actually Care About**

Let's face it. This is the stuff you're really looking at.

- · Previous Employment
  - Colorado School of Mines (4 months): "Digger Dialer" Fundraising, Donation Solicitation, general pestering of alumni
  - Pei Wei Asian Diner (12 months): PoS expert user, eating surface sanitation specialist, client deliverables preparation and delivery, I was a cashier and busboy and runner and food prepper and closer and all around customer's butler, manager of transcriptions of phone-in orders to internally understood documentation, guest conflict resolver
  - HostGator.com LLC (13 months): GNU/Linux Web Hosting Systems Administration (Calls, Chats, Email), understanding of Apache, Exim, Dovecot, MySQL, cPanel, WHM, bash/perl scripting, strace debugging, customer site performance evaluation and optimization
- Academics
  - Graduation Date: May 2014
  - Completed Hours: 0x78
  - GPA: 0x40333333 (IEEE-754)
