Preston Maness - January 15 2014

Electrical and Computer Engineering at Texas State University

Clone my resume!

```
$ git clone https://github.com/aggroskater/resume.git
```

- **Phone**: 512-955-1048
  - *It's always nice to get calls from someone other than a collector.*
- **Email**: aggroskater@gmail.com (main key id: 9202669D)
  - *impress me with your ability to send an encrypted email! Impress me further still by giving me a call to verify the fingerprint!*
- **Blog**: http://aspensmonster.com/
  - *Click this link and you too can be one of the hundred or so visitors a day!*
- **Code**: https://github.com/aggroskater/
  - *Ream me for my terrible coding style and abysmal build-breaking commits!*

Stuff you Should Care About

This is the stuff that I'm passionate about. These are the things I put effort into and learn for no better reason than "because." Because technology is awesome and community is important.

- Participation in Open Source and Free Software Community
  - Member of Archive Team
  - Bug Squashing with GNU FSF's `wget`
  - Bug Squashing with Valve's `steam` (Ok, technically not Open Source, but still involved)
  - Devops/Bug Squashing/Feature building work for Youtube Center (Assisted @YePpHa with automatic plugin updating for the YTC project. See pull request)
  - A blog with extensive documentation and tutorials of various GNU/Linux user needs as well as write-ups of a mathematical nature
- Projects
  - Terminal-based Aces Up card game in C++
  - Rudimentary DC Power Supply
  - Rudimentary Class A Power Amplifier
  - Hardware Random Number Generator
  - A personal wiki with guides on some differential equations problems and circuits problems.
- Competencies
  - **Programming**: C++ (with exposure to C with autotools, perl, and various flavours of assembly)
  - **Scripting**: Bash
  - **Version Control**: git
  - **System Administration**: GNU/Linux
  - Community Management/Communication

Stuff you Actually Care About

Let's face it. This is the stuff you're really looking at.

- Previous Employment

  - **Colorado School of Mines** (4 months): "Digger Dialer" - Fundraising, Donation Solicitation, general pestering of alumni
  - **Pei Wei Asian Diner** (12 months): PoS expert user, eating surface sanitation specialist, client deliverables preparation and delivery, fork one of my repo's if you're actually reading this, client deliverables preparation and delivery, I was a cashier and busboy and runner and food prepper and closer and all around customer's butler, manager of transcriptions of phone-in orders to internally understood documentation, I repeated one of these specialties, guest conflict resolver
  - **HostGator.com LLC** (13 months): GNU/Linux Web Hosting Systems Administration (Calls, Chats, Email), undestanding of Apache, Exim, Dovecot, MySQL, cPanel, WHM, bash/perl scripting, strace debugging, customer site performance evaluation and optimization

- Academics

  - **Projected Graduation**: May 2014
  - **Completed Hours**: 0x78
  - **GPA**: 0x403147AE (IEEE-754)
